About the Programme: M.Voc. (Public Health) is being offered in collaboration with IQVIA (Formerly IMS Health Information and Consulting Services - India). The PGDPH shall enable the students to understand the basic concepts, scope and importance of public health and conduct basic data analysis and interpretation. The trainees shall be prepared to describe key concepts and principles related to project management, human resource management, financial management, organisational behaviour and their application to public health programmes. The programme shall also enable them to apply management principles in planning, implementation, monitoring and evaluation of the public health schemes. The students shall be able to undertake basic primary and secondary research.
