M Com. Curriculum & Scheme w.e.f. July 2018 CBCS

Bachawat
3/10/18 -2-

*MOOC will be studied and evaluated online. The subject choices will be offered to the students towards the end of the second semester by the MOOC mentor of the department and the list of subject chosen will be forwarded to the Exam branch before the beginning of the third semester.

Dissertation** [MCM-2210]

Total Credits: 5

Max Marks: 100

Students have to complete a Research Project during their M.Com course. The topic of which will be assigned by the concerned teacher designated by the Chairperson/ In Charge, Department of Commerce in the beginning of third semester. The student will be required to complete the Project work and submit the report one month before the commencement of the fourth semester examinations. Along with it they are required to make a presentation before a committee duly constituted by the Chairperson, Department of Commerce consisting of two teachers of the concerned area and the research supervisor. The dissertation will be accepted for submission and evaluation when at least one research paper out of the project work has been published or accepted in a research journal, or presented in any National Conference/ Seminar. If a student fails to do so, then she has to give the presentation of the dissertation before a board constituted by the Chairperson of the Commerce. The dissertation shall be evaluated by two examiners including the supervisor and one external expert appointed by the Chairperson of the Department, through viva voce.

Last Date of Project Submission: 31st March.

Condition: Marks in 1st semester should be above 60%.

The examiner will set two questions from each unit out of which the candidate shall attempt four questions selecting one question from each unit. All questions shall carry 16 marks each.

Course Objectives:

The main purpose of this paper is to understand the process of research, concepts of sampling and tools for data collection and analysis and process of documentation and research report writing.

Course Inputs

- Unit - I** Introduction- Scope and Application of Research, concepts and tools for business research, Research process, Research Design: exploratory research, descriptive research, diagnostic research, action research and experimental research.
- Unit - II** Collection of data: primary and secondary data; sources of secondary data; methods of collecting primary data – observation, experimentation, simulation, interviewing, mail survey, projective techniques, Socio-metric, focus group discussion and content analysis. Tools for data collection—schedule and questionnaire; measurement scales: pilot study and pre-testing questionnaire.
- Unit - III** Field Work: Nature of field work; field administration; Editing, classification and codification of data. Tools for statistical analysis; Descriptive Analysis of Data. Correlation, Regression, Analysis of variance (ANOVA) using SPSS Software.
- Unit - IV** Report writing – Types of reports; Planning report writing; research report format: documentation – footnotes and bibliography; writing the report and typing the report.

Suggested Readings (latest editions shall be followed):-

1. Montgomery, Douglas C., Design and Analysis of Experiments. (Wiley India).

Course Objective: The objective of this subject is to enhance the knowledge of students regarding the financial decisions of managers in organizational setup so that they are prepared to handle the real financial problems of a firm.

Course Inputs:

- Unit - I** Finance: Meaning, Sources of short-term and long-term finance, Organization of the Finance Function. Meaning of Financial Management, Functions of Financial Management; Objectives of the Firm-Profit Maximization and Wealth maximization; Capital Structure: Meaning of optimum capital structure, factors affecting the capital structure decision and Theories of capital structure.
- Unit - II** Cost of Capital: Meaning, Components, Factors Affecting Cost of Capital, Importance, Estimation of WACC. CAPM Model. Leverage: Meaning, utility, Types of Leverage: Operating and financial, Combined Leverage. Dividend Policy: Meaning, factors affecting, types of dividend policies, Relevance and Irrelevance approaches to Dividend Policy
- Unit - III** Capital Budgeting: Meaning, importance, rationale of Capital Budget, nature of investment Decision, the Administrative frame work, Methods of appraisal based on Discounted cash flow: NPV, IRR, PI (their comparison and application). Capital rationing, Inflation and Capital budgeting; Decision tree Analysis. Working capital management: Concept of working capital; need and importance of working capital, factors influencing planning of working capital, computation of working capital. Working Capital & banking policy (Tandon, Chore, Marathe committee reports.)
- Unit - IV** Cash management system: introduction, motives for holding cash and marketable securities: factors determining the cash balance, managing the cash flow: Types of collection systems, Investment of surplus cash in various types of marketable securities. Receivable management: introduction, objectives, costs, benefits, credit policies, evaluation of the credit applicant, credit terms, collections from accounts receivable.

Course Objectives: The purpose of this course is to develop an understanding of the underlying concepts, strategies and issues involved in the analysis of statistical techniques.

Course Inputs:

- Unit - I** Probability and Probability Distributions: Probability Theory; Concept of probability: Different approaches to probability; conditional probability; application of Addition and Multiplication Laws; Baye's Theorem and Inverse probability and Mathematical expectation.
Probability Distribution: Concept, types. Discrete Probability Distributions: Binomial Distribution, Poisson distribution: Assumptions, characteristics and application in decision making.
- Unit- II** Continuous Probability Distribution: Normal Distribution, characteristics, assumptions and their applications to business.
Linear Programming and Network Analysis: Linear Programming- Uses, applications, data requirement and limitations. Simplex Method only.
- Unit-III** Correlation and Regression: Meaning, significance, Types of Correlation, Partial correlation, Multiple correlation (up to Three Variables).
Multiple Regression: Meaning, Importance and Application (up to Three Variables).
- Unit – IV** Time series - components, models, trend analysis including second degree parabola and exponential formula measurement and of seasonal cyclical and irregular variations, shifting the trend origin.
