

The admission criteria for M. Pharm 2022 are as follows:

- First of all, students should appear for the GPAT entrance exam, and they should qualify for the test with an average score. Based on their secured scores and counselling process, students get direct admission to Top MPharm colleges. The institution body also conducts a PI round. Students should clear the PI round to get selected for admission.
- If students didn't appear for GPAT entrance, they can select the colleges based on their choice and fill the application form provided on the official website of respective colleges.
- Students should appear for the entrance tests conducted by the respective colleges and institutions. They should secure a decent score at the entrance. While shortlisting candidates based on their scores., a cut-off list is created for every college. One's score should exceed the cut-off marks of a particular college to get admission into top M.Pharm Colleges. For example, the Birla Institute of Technology(BITS) conducts the BITS HD Pharmacy examination for M.Pharm admission.
- After that, final admission depends on counselling and seat allotment rounds carried out by the respective colleges.
- Students should qualify for online entrance tests like NIPER JEE & other tests, and they should appear for the counselling process. Check [MPharm Admissions 2022](#)
